## COLLECTION DEVELOPMENT

- The foundation of any public library is a broad and varied collection of information resources including print, media and electronic resources, which meet the educational, informational, recreational and cultural needs of the community it serves. The Flower Mound Public Library was established to serve everyone within the Library's service area and recognizes individuals and groups within the community have diverse interests, backgrounds and needs.
- The purpose of the library selection process is to acquire materials in accordance with the mission and goals of this library within budgetary constraints. The Library's mission states: "The Flower Mound Public Library supports education in our community by providing access to information, creating young readers, fostering success in school, and facilitating lifelong learning. The Library contributes to the quality of life in Flower Mound by stimulating imagination, celebrating diversity, and encouraging creativity in a space that meets the needs of the community." The Library upholds the right of the individual to secure information, even though the content may be controversial, unorthodox, or unacceptable to others. Materials in the library present a diversity of view points, enabling citizens to make the informed choices necessary in a democracy.
- Ultimate responsibility for materials selection rests with the Library Director who operates within the framework of policies approved by the Cultural Arts Commission. The Library Director delegates the task of collection development to professional staff.
- The Library strives to collect materials offering differing points of view. The primary criteria used in selecting material include: popular demand, quality, accuracy, authority, timeliness, enduring value, social significance, cost and availability of material on the topic. Other criteria may apply in certain circumstances. Materials are judged on the basis of the content and style of the work as a whole.
- Materials are selected for the Library using a variety of sources, including professional journals, trade journals, subject and genre bibliographies, publisher catalogs, reviews in the popular press, and suggestions from patrons. Materials must meet one or more of the following criteria to be selected.
- Criteria:
  - Reviews from professional library resources/journals
  - Authoritativeness and/or reputation of the author
  - Relevance to interests and needs of the community
  - Price, availability, and Library materials budget
  - Extent of publicity, critical review, and current or anticipated demand
  - Currency and accuracy of information
  - Level of need within the existing collection
  - Impartiality or absence of bias
  - Aesthetic qualities or literary merit

## COLLECTION DEVELOPMENT

- Criteria continued
  - Technical aspects such as illustrations, sound, and clarity
  - Suitability of the physical form for library use
  - Online resources are also evaluated based on accessibility and availability of library licensing
  - In most cases, the Library will not purchase self-published materials that are not reviewed in established review journals. The Library will accept self-published materials from local authors that will be considered based on the above criteria.
- Flower Mound Public Library does not attempt to meet curriculum needs of educational programs at any level.
- The Library will not purchase materials that use text or images created by generative AI. Donated materials will not be considered if they contain text or images created by generative AI.
- Materials are selected in the most appropriate format for the conditions under which they will be used, with consideration given for cost and length of use. E-content will be selected using the same criteria as other materials.
- Multiple copies will be purchased for titles that have high demand. Multiple copies of classics and required reading for the school district will be purchased as appropriate and within budget considerations.
- In order to maintain an up-to-date collection, worn and outdated materials are continuously reviewed and withdrawn from the collection as needed. Materials may also be withdrawn if they are seldom used or are superseded by a new edition or better work on the same subject. The CREW method: Expanded Guidelines for Collection Evaluation and Weeding for Small and Medium-Sized Public Libraries, published by the Texas State Library, is used as a guideline for collection maintenance.
- Requests to reconsider library materials must be made in writing, using the “Request for Reconsideration of Library Materials” form. Requests will only be accepted from adults who are both a Flower Mound resident and a Flower Mound Public Library cardholder in good standing. The Director, in conjunction with the Library’s department managers, will consider requests and communicate the decision in writing to the requestor. The Director will inform the Cultural Arts Commission of all requests for removal. Requests that have been denied may be appealed by making a written request to the Cultural Arts Commission. An item may only be reconsidered once. Once an item goes through the reviewal process, it may not be reconsidered again.

## LIBRARY PROGRAMMING

- Library programs are provided as a service to Flower Mound residents based on the goals of the Library's Strategic Plan. Responsibility for programming rests with the Director of Library Services, who delegates planning and coordinating of library programs to the Library managers. Programs may be planned and presented by Library staff, or outside presenters may be used. Professional performers and presenters that reflect specialized or unique expertise may be scheduled for Library programs. Presenters who can present at no charge will be given preference, but professional presenters may be hired as needed.
- All Library programs are open to the public. Some programs may be limited to cardholders or have age limits or other attendance restrictions. Library programs are free. Registration may be required for planning purposes or when space is limited. Any sales of products at Library programs must be approved by the Library. Programs may not be commercial, religious, or partisan in nature. Library sponsorship of a program does not constitute an endorsement of the content of the program, or the views expressed by participants.
- The Library staff uses the following criteria in making decisions about program topics and providers:
  - Community needs and interests
  - Relevance to community issues
  - Availability of program space
  - Appropriate for intended audience
  - Presentation quality
  - Presenter background/qualifications in content area
  - Budget
  - Historical or educational significance
  - Connection to other community programs, exhibitions or events

- The Library has limited space available for posters, flyers and the distribution of free literature. Only space designated by the library may be used. Items larger than 8.5" x 11" cannot be displayed due to space limitations. Items may be displayed until the date of the event or for 30 days, whichever comes first. When items are removed they will be discarded by Library staff.
- First priority will be given to Library and Town of Flower Mound materials. If space is available the Library will display posters, flyers and free literature for non-profit organizations that serve the citizens of Flower Mound. Items of a personal, commercial, political or religious nature may not be posted or displayed.
- As a service to the public the library will provide space for a limited number of free magazines, directories, shoppers' guides, and similar types of literature. The decision to provide free literature will be made by Library staff based on appropriate available space and the relationship of the literature's contents to the mission and goals of the Library and the Town of Flower Mound.
- The display of any item does not imply advocacy or endorsement by the Library or the Town of Flower Mound. All items for display must first be approved by the Director or his/her designee. Items posted without approval will be removed and discarded by Library staff.
- The Library will have donation boxes for Town and Library partners for collection of materials.
- The Library Director or designee can approve community partner boxes based on space. Collection boxes are limited to 30 days and one request per year.
