ENVIRONMENTAL CONSERVATION COMMISSION AGENDA ITEM NO. 2

REGULAR ITEM

DATE: December 7, 2021
FROM: James Hoefert, Environmental Review Analyst
PRESENTER Brian Earley, with Lewis and Earley
ITEM: **Consider an application for a tree removal permit (TRP21-0024) for one (1) specimen tree on Lot 8, Block B of the Pepper Creek Ranch Addition subdivision. The property is located at 4709 Angels Landing.**

BACKGROUND INFORMATION:

Lot 8, Block B of the Pepper Creek Ranch Addition subdivision is located at 4709 Angels Landing. The lot is approximately 0.752 acres in size. The lot is currently zoned for Planned Development District No. 162 (PD-162) for a cluster development and is master planned for the Cross Timbers Conservation Development District. The applicant is requesting to remove one (1) of two (2) specimen trees from the residential lot because of the tree's proximity to the building pad. The specimen tree proposed for removal (Tree #3718 – 22" post oak) is in good condition and is located within the buildable area of the lot.

The Town's tree ordinance requires that specimen trees removed from the site be replaced at a rate of two times their caliper inches. However, since the specimen tree being proposed for removal is located in Upland Habitat, the Upland Habitat mitigation fee requirements are applied to this project/permit.

CITIZEN FEEDBACK: As of December 2, 2021, staff has not received feedback related to this item.

ALTERNATIVES/OPTIONS: N/A

FISCAL IMPACT: N/A

LEGAL REVIEW: N/A

ATTACHMENTS:

1. Letter of Intent.
2. Specimen tree removal permit application.
3. Photograph of the specimen tree.
4. Photograph of approved signage onsite.
5. Tree Survey/Plot Plan.

RECOMMENDATION: Move to recommend approval or denial of the requested permit for one (1) specimen tree on Lot 8, Block B of the Pepper Creek Ranch Addition subdivision. The property is located at 4709 Angels Landing.

Letter of Intent

Lewis & Earley Custom Homes, LLC requests to remove Tree 3718 from the lot because we don't believe there is any way to build a house without removing it. It is sitting almost in the exact middle of the lot.(see attached)

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknowledgments from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. he/she/they, is /are) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
 - ❖ Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
 - ❖ Indicate title or type of attached document, number of pages and date.
 - ❖ Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

Tree Removal and Preservation Plan

- 1) Tree 3718 is to be removed.
 - 2) Tree 3712 is to be preserved
- House plans have been altered to preserve this tree. Preservation plan below. (Green Shaded in site plan to the right)
- 3) 3726, 3727, 3728 will remain and the root zone will be undisturbed (blue shaded on site plan to the right)

Preservation Plan for #3712

- 1) Remove all vegetation that is within the Tree Protection Zone (TPZ)
 - 2) Cover the TPZ with 3" Shredded Hardwood Mulch. Replenish if project last for one year or more
 - 3) Uncover the root flare of the tree if determined by a certified arborist that this is necessary
 - 4) Reduce the crown no more than 25% to adjust the crown demand to the reduced root capacity. This can be done in conjunction with pruning that may be necessary to accommodate the driveway and house.
 - 4) Apply a Tree Growth Regulator to aid the tree in re-establishing the fine absorbing roots
 - 5) Apply a systemic insecticide (Imidacloprid) as a preventive against borers and foliar feeding insects. Apply in February
 - 5) Install a metallic semi-permanent fence on the perimeter of the TPZ. This fence is to remain in place until final completion of the project, including final landscaping.
- No entry into the TPZ is allowed without the permission of the site Supervisor and appointed certified arborist.
- 6) No grading (fill or removal) of the soil is allowed in the TPZ
 - 7) No trenching is allowed within the TPZ
 - 8) Root prune all roots over 1" diameter at the edge of the driveway forms. Cut the roots cleanly with a sharp saw. No roots are to be ripped or dug from the area until the root pruning is completed.
 - 9) During the warm seasons and in the absence of appreciable rain for two weeks, irrigate the TPZ deeply with 1-1/2" of water.
